

State Minister  
Ministry of Power, Energy & Mineral Resources  
Government of the People's Republic of Bangladesh

I am happy to learn that 'Conference & Exhibition Management Services (CEMS) Bangladesh' is organizing the 'POWER Bangladesh 2009 International Expo' on power generation, transmission, PV power and renewable energy from November 12 to 14 at Bangabandhu International Conference Centre in Dhaka.

I hope that the important companies from home and abroad will actively participate in this expo and all assembled under one roof to bring forward new products / technologies which are available in order to upgrade the power sector.

It is important to diversify the source of energy and explore newer opportunities to meet the growing demand of power and energy. 'POWER Bangladesh 2009 International Expo' will be a good platform for the power & energy entrepreneurs of the country to get the opportunity to see the latest technologies and innovations in this sector.

I wish all the success of this 'POWER Bangladesh 2009 International Expo'.
